

Lifecycle Mission Data Process

Development and Assessment Process

Phase I – Acquisition Program
 Operating through/with Service Acq-Intel

- Defines IMD requirements at threshold & objective levels
- Identifies IMD need dates

Phase V – Acquisition Program

- Conducts IMD risk assessment
- Develops courses of action to mitigate risk
- Input COLISEUM PRs

Acquisition Community

Intelligence Community

Phase II – IMDC

- Review requirements for appropriate fidelity
- Cross-check IMD targets with STAR if applicable
- Review requirements for appropriate fidelity and create cost workbook

Phase IV – IMDC

- Reviews unavailable IMD, timetable & costs
- Identifies common IMD requirements across multiple programs and services
- Coordinates w/IMD functional area boards
- Assist in obtaining USD(I) waiver for non-DoDIC IMD Production

Phase III – IPC
 Works with Acquisition PM, Service Acq-Intel or IMDC as necessary

- Determines availability of IMD
- Prepares cost estimate for IMD gaps using standardized and transparent costing methods
