PAPM, Naval Open Architecture
PEO IWS 7B***

Change the Way Contracts are Written

Increase OA

Increase Multiple Award Contracts

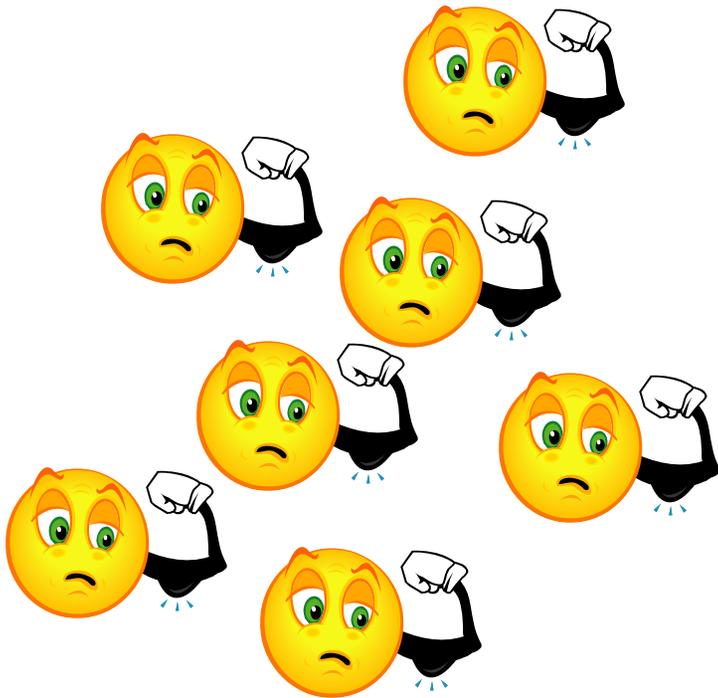

Secure Data Rights

“We ought to improve on the numbers of contracts that we competitively award. We ought to be striving to award up to two-thirds of our contracts in a competitive nature and not just half. We’ll be able to do this by **changing some of the way our contracts are written**, by **increasing open architecture**, by **increasing use of multiple award contracts** and by **securing data rights for follow-on competition.**”

Ray Mabus, Secretary of the Navy
Navy League Sea-Air-Space Expo
5 May 2010
