

PCOLS Release Notice

Data Mining Release Build 3 Production Release Date: 12/12/2015

1.0 INTRODUCTION

The purpose of this release is to address some of the outstanding requirements for the PCOLS Data Mining (DM) application of updating the Case Manager displays and providing additional user capability. Also, this release provides updates to the Case History file and batch file transfer process.

2.0 SYSTEMS IMPACTED

This release will impact the following systems:

- 1) DM Application
- 2) User Interface

3.0 RELEASE PACKAGE CONTENTS

The following updates will be included in the PCOLS DM Release Build 3:

3.1 ECP 18 - Update date field displays within Case Manager

ECP 18 adds two new fields to the Case Manager to provide more relevant information to the end user. Updates include the following:

- Case Created Date
 - It will be added below the existing Transaction Type field
 - It will display the date the model flags the case as at-risk or when the case has been self-initiated and never updated

3.2 ECP 19 – Update the Case Manager to display Reason Flagged and Score (for Level 2 and PCPO ONLY)

ECP 19 updates the Case Manager to only allow level 2 and PCPO users to view the Score, Reason Flagged, and Case Creation fields. These fields no longer will be displayed to other users. All four reason codes now will be displayed.

3.3 ECP 20 - Update Case Manager to sort on the DATE Column

ECP 20 provides additional sorting on the Case Manager Account Details screen. The sorting capability will now include the Transaction Date column. The default sorting will be by the most current Transaction Date and highest Amount first. Example follows:
