The purpose of this memorandum is to solicit nominations for the Office of the Secretary of Defense (OSD) 2014-2015 Supply and Transportation Fellows Program, which will commence on or about July 7, 2014. The Fellows Program is a year-long, hands-on leadership and management development program under the direction of the Assistant Secretary of Defense for Logistics & Materiel Readiness. It is designed to enhance the career development of selected mid-level logistics professionals in military grades 0-4 to 0-5 and civilian grades GS13-14 and equivalent who have demonstrated top potential.

Nominations are due not later than February 21, 2014, and must be approved by the agency or command flag officer/Senior Executive Service member. Applications will be screened for those individuals who have demonstrated significant potential for advancement in the logistics career field. We will announce the selection of the Fellows in March 2014.

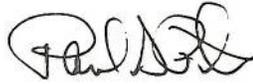

Request addressees submit nominations to the POCs listed below and include the following:

1. Resume or military biographical summary
2. Most recent performance appraisal or military performance report
3. Signed copy of training agreement (attached)
4. Statement from the nominee, not to exceed one page, explaining why he or she should be favorably considered for the program

Selected Fellows will be integrated into the OSD Supply Chain Integration and Transportation Policy offices, but will remain assigned to their parent organizations. All program related expenses during the year are borne by the nominee's parent organization. Program related expenses include salary, official travel and per diem, transportation costs, and living expenses. Travel, per diem and registration costs associated with Fellows' training and trips to government and private sector logistics organizations outside the National Capital Region are estimated to be no more than \$7,000 per individual for the year.

The Fellows Program provides significant headquarters-level experience and benefits to the participants, their Department of Defense Component, and the logistics community as a whole. I encourage your strong support of this program to further the executive development of our future logistics leaders.
