

Your Preferred Source for IT Acquisition Across the DoD

ESI Agreements

## About DoD ESI

DoD ESI is a joint project, originally established as the Department of Defense Enterprise Software Initiative, to implement a software management process for the DoD enterprise. Starting with twenty-three software purchasing and management best practices identified and adopted by the DoD ESI Working Group, DoD ESI implemented a DoD-wide process for acquiring commercial software. Information Technology (IT) acquisition and contracting professionals within participating DoD Services and Agencies, known as Software Product Managers (SPM), negotiate DoD ESI enterprise agreements and support contracting actions. By leveraging DoD-wide requirements for commercial software and presenting a single negotiating position to software providers, SPMs implement enterprise purchasing vehicles with pricing advantages, contract terms, and licensing provisions not otherwise available to individual DoD Components and other authorized buyers, which include the Intelligence Community. DoD ESI also offers vehicles for selected IT services, and facilitates commodity IT hardware buying initiatives. DoD ESI leads efforts to implement enterprise IT Asset Management (ITAM) capabilities across the Enterprise. DoD ESI is represented on the DoD Strategic Sourcing Board of Directors (SSDB) and on the Federal Strategic Sourcing Initiative (FSSI) IT Commodity Team. DoD ESI implements the General Services Administration (GSA) SmartBuy program within DoD. For additional information, visit the DoD ESI website at <http://www.esi.mil>.

## DoD ESI Agreements

Publisher	Category	ESA Information
<b>Adobe Digital Media Products</b> <i>(Formerly Adobe Desktop)</i>	Digital Media	Average Discount of 15% off GSA TLP Level 1 prices
<b>Adobe Server</b>	Digital Media	10% off GSA FSS prices (level 4)
<b>Autodesk</b>	Computer Aided Design	Over 2 Dozen <b>AutoCAD</b> and <b>Autodesk</b> Products
<b>Alamo City Engineering Services</b>	Data Compression	Minimum 5% off GSA FSS prices
<b>BMC Remedy</b>	IT Asset Management	Licenses and maintenance at up to 5% off GSA FSS
<b>CA Technologies</b>	Enterprise Management Modeling Tools	<b>CA Unicenter</b> 64% off GSA FSS <b>BPwin</b> and <b>Erwin</b> Modeling products 56% off GSA FSS
<b>Compusearch</b>	Business Intelligence	The DoD ESI BPAs for <b>Compusearch</b> software are available to all DoD components including the Intel community and offer 20% minimum discount off of GSA pricing for all product purchases. Maintenance, Training and Professional Services discounts will be less.
<b>Flexera</b>	IT Asset Management	ITAM products offered at 20% off GSA FSS
<b>Forrester</b>	Research and Advisory	Services offered at 4% off GSA FSS
<b>Gartner</b>	Research and Advisory	Services offered at up to 33% off GSA FSS
<b>Hewlett Packard (HP)</b>	IT Asset Management	<b>ITAM</b> products offered at 0.5% off GSA FSS
<b>IBM</b>	Consolidated Products	<b>DB2, Informix, Lotus Notes, Rational, Rhapsody, Telelogic, Tivoli, Websphere</b> and other <b>IBM products</b> .

Publisher	Category	ESA Information
		<b>IBM End Point Manager (formerly BigFix)</b> ITAM software is available through GSA SmartBuy
<b>Ironhawk</b>	Data Compression	.5%-7% off GSA FSS depending on quantity ordered
<b>McAfee</b>	Anti-Virus	<b>McAfee anti-virus</b> available at no cost for DoD and home use (see DISA PEO-MA anti-virus website)
<b>Microsoft</b>	Office Automation	<b>Desktop, server, back office</b> and other products at up to 38% off GSA FSS
<b>Minitab</b>	Statistical Software	<b>Statistical Software, Quality Companion</b> and <b>Quality Trainer</b> software discounted up to 5% off GSA FSS
<b>NetIQ</b>	Network Security	Systems / security management and web analytic tools up to 18% discount off GSA FSS
<b>Oracle/Sun</b>	Database/Middleware	<b>Support Total Enterprise Warranty II (SSTEW2)</b> hardware/software support, extended warranty, maintenance, education, incidental hardware/software, system engineering services
<b>Palantir Technologies</b>	Cloud Computing	The <b>Palantir</b> ESI BPA is available to all DoD components, including the Intel community, and offers 100% discount (no cost) on all training courses required with the purchase of Palantir perpetual and/or term licenses under an ESI issued task order.
<b>PowerSteering</b>	Project Management	<b>Project and Portfolio Management (PPM)</b> software ( <b>Lean Six Sigma</b> ); Transactional discounts from 2.6% to 12% off GSA FSS pricing.
<b>PTC</b>	Business Intelligence	PTC products including <b>Windchill</b>
<b>Red Hat Linux</b>	Operating System	Operating systems software and services at 10% to 48% off GSA FSS
<b>Red Hat Netscape</b>	Office Systems, IA	Products available at no cost through DoD ESI
<b>SAP Public Services, Inc.</b>	ERP	<b>Enterprise Resource Planning (ERP)</b> software starting at 33% off GSA FSS pricing. Greater discounts are available for higher volume.
<b>Service Now</b>	IT Asset Management	<b>ServiceNow Process Approver, ServiceNow Discovery,</b> and other ITAM software offered at 0.0025% discount off of GSA FSS
<b>Solar Winds</b>	IT Asset Management	<b>Solar Winds Configuration Manger, Solar Winds Server &amp; Application Monitor</b> and other ITAM software offered at 2.34% discount off of GSA FSS
<b>Sybase</b>	Business Intelligence	<b>Adaptive Server Enterprise (ASE)</b> at 64% off GSA FSS pricing
<b>Symantec</b>	IT Asset Management	<b>Altiris</b> ITAM software offered at 8% discount off of GSA FSS pricing.
<b>Websense</b>	Security Filtering	Premium Support, Web Filter, Security Gateway, and Web Security all at an average savings of 3% off GSA

Recent policy, such as the DoD CIO memo of February 17, 2012, "Optimizing Use of Employee Technology Devices and Software" and the OMB memo M-16-02 of October 16, 21015, "Category Management Policy 15-1: Improving the Acquisition and Management of Common Information Technology: Laptops and Desktops, have directed agencies to "cut waste in spending and identify opportunities to promote efficient and effective spending. These policies also direct agencies to "promote and practice efficient acquisition...through consolidated contract vehicles". Full text of these policies can be found on [www.esi.mil](http://www.esi.mil) under the Resources/Tools tab. To assist in complying with this policy, DoD ESI has targeted the below contract vehicles for hardware and hardware services. While these are not formal ESAs, pricing and terms and conditions have been found to comply with DoD ESI goals and practices. These contract vehicles should be considered before using other like vehicles or before awarding new contracts.

## DoD Hardware Agreements

Contract	Manager	Authorized Users	Website	Contract Information
ADMC-2	Army	All DoD & Federal	<a href="https://chess.army.mil/contract/admc2">https://chess.army.mil/contract/admc2</a>	The scope of the Army Desktop and Mobile Computing-2 contract includes commodity purchases of commercial off-the-shelf desktops, notebooks, ruggedized and semi-ruggedized devices, personal digital assistants, printers, scanners, power supplies, displays, video teleconferencing equipment, digital cameras, displays, transit cases and related accessories and upgrades. Limited services include: installation, asset tagging, imaging, site survey, system configuration.
Army Wi-Fi Device Contract	Army	All DoD & Federal	<a href="https://chess.army.mil/contract/mobilityservices">https://chess.army.mil/contract/mobilityservices</a>	The scope of the Wi-Fi devices offered through the CHESSE IT e-mart have either an Android or Apple IOS Operating system. All devices are Wi-Fi only and have no cellular data plans or capabilities.

# DoD Hardware Agreements

Contract	Manager	Authorized Users	Website	Contract Information
<b>DON Enterprise Wireless Contracts</b>	Navy	DON	<a href="http://www.navy.mil/su_bmit/display.asp?story_id=63083">http://www.navy.mil/su_bmit/display.asp?story_id=63083</a>	The new Department of the Navy enterprise wireless multiple award contracts, covering commercial cellular providers, managed by NAVSUP Fleet Logistics Center San Diego, are now in effect. Commands should be aware of the additional cost-saving opportunities now available that can help drive down monthly spending on both wireless devices and services.
<b>GSA IT Schedule 70</b>	GSA	All DoD & Federal	<a href="http://www.gsa.gov/portal/category/100515">http://www.gsa.gov/portal/category/100515</a>	Schedule 70 is an indefinite delivery/indefinite quantity (IDIQ) multiple award schedule, providing direct access to products, services and solutions from more than 5,000 certified industry partners.
<b>ITCC QEB</b>	Air Force	Air Force	<a href="https://www.afway.af.mil/">https://www.afway.af.mil/</a>	The Client Computing and Servers strategic sourcing project was the first implementation for the ITCC. The initial Desktop, Laptop, and Servers BPAs were awarded in 2005 with the follow-on BPAs awarded in 2010 under the CCS project name. The CCS BPAs have a period of performance of five years ending June 2015. The CCS products are sought under the Quantum Enterprise Buy process which is accomplished twice per year. The Standard Desktop Configuration prepared by the Air Force Enterprise Configuration Management Office is loaded on all QEB and eTools products offered under the CCS BPAs.
<b>ITES-3H</b>	Army	All DoD & Federal	<a href="https://chess.army.mil">https://chess.army.mil</a>	The ITES-3H contracts are intended to be a total solutions based contract vehicle for the purchase and lease of commercial information technology (IT) equipment to support Army needs for server, office IT equipment and storage environments. The purpose of the ITES-3H Program is to support the Army enterprise infrastructure and infostructure goals with a full range of state-of-the-market Information Technology equipment and related incidental services that meet the definition in FAR 2.101, Definitions, for "commercial items."
<b>MCHS Common HW Suite</b>	Marine Corps	DON	<a href="https://vpms.mceits.usmc.mil/shoppingcart/home.aspx">https://vpms.mceits.usmc.mil/shoppingcart/home.aspx</a>	Marine Corps Systems Command (MCSC) has the responsibility to centrally manage the procurement and refreshment of all information technology (IT) hardware for the US Marine Corps. The Marine Corps Common Hardware Suite program was created to meet IT hardware requirements. MCSC procures Commercial-Off-The-Shelf computer systems, including ruggedized and non-ruggedized desktops and laptops, as well as servers and other associated computer equipment and accessories.
<b>NETCENTS-2</b>	Air Force	Air Force	<a href="http://www.netcents.af.mil/contracts/netcents-2/products/index.asp">http://www.netcents.af.mil/contracts/netcents-2/products/index.asp</a>	IAW with AFMAN 33-153 the NETCENTS-2 Products contract is mandatory for the purchase or lease of netcentric products for USAF customers. This contract supports the Global Information Grid (GIG) architecture, Defense Information

## Pricing Discount Structure

DoD ESI has excelled at securing discounted prices for commercial software and IT hardware and services since 1998—yielding over \$7B in cost avoidance. DoD IT buyers reduce buying cycle time and risk by using DoD ESI’s enterprise software agreements (ESAs) with enhanced terms and conditions that support many DoD objectives and industry best practices. The ESAs generally provide license terms that improve upon those contained in the GSA Schedule, such as:

- Expanded use rights
- Functionality replacement and extended support
- Rights of survivorship of the Agreement
- Transfer rights within DoD
- Temporary use of software during times of conflict
- Compliance with IPv6 requirements
- Compliance with Net-Centricity policies

Additional discounts may typically be provided based on further competition at the order level and other factors, such as:

1. The volume of the transaction/order
2. A milestone discount level achieved due to the total cumulative volume ordered under the ESA
3. Spot discounts/transaction basis/time of year/ other opportunities

The spot discounts do not automatically equate to a new DoD ESI/SmartBUY price in the BPA available to future orders. The BPA price is set for the term of the BPA but is subject to negotiation and, where applicable, subject to any cumulative volume discount rates published in the BPA. An example of the cumulative pricing discount concept is shown below:

Transaction #	Cumulative Value of Orders Under the ESI BPA	Additional Discount on the Order
---------------	--	----------------------------------

1	\$1,000,000	0
2	\$2,000,000	5%
3	\$10,000,000	10%

### Typical Pricing Structure

List Price / Retail Rates	\$\$\$\$\$
GSA Pricing	\$\$\$
ESI / SmartBUY Price / Rate	\$\$
ESI secures initial discounts off the published GSA Federal Supply Schedule rates from the publisher, hardware vendor or service provider. The pricing established in an ESI agreement is typically not the final price to be paid for the IT software, maintenance, hardware, or services.	
Order Price / Price Paid by ESI Customer	\$
When a customer uses an ESI agreement to order from, generally additional discounts may be negotiated by the program’s contracting office.	

### Pricing Support

If you have any questions about DoD ESI pricing, please contact the Software Product Manager (SPM) assigned to the vendor or product you are seeking to acquire. Contact information is available on the ESI web site under the section titled “Ask an Expert”.
